CAREER OBJECTIVE

Motivated and detail-oriented Computer Science (AI & ML) final year student with hands-on experience in Flutter and Firebase application development. Eager to learn and be a part of a growing team to create and ship products that make an impact.

EDUCATION

CMR College of Engineering and Technology 2024 - 2027

B. Tech, Computer Science and Engineering (Artificial Intelligence and Machine Learning)

• CGPA: 8.54

Sree Dattha Institute of Engineering and Science 2021 - 2024

Diploma, Computer Science and Engineering

• CGPA: 8.05

MJPTBCWR Boys School Kowdipally 2021

Secondary (X)

• GPA: 10.0

SKILLS

- **Programming Languages:** Python, Java, C, SQL, Kotlin
- **Mobile Development:** Flutter, Android (Kotlin)
- **Backend / APIs:** Firebase
- **AI/ML:** TensorFlow, Deep Learning, ANN Classification
- **Tools:** Git/GitHub, Android Studio, VS Code, Jupyter Notebook

PROJECTS

SkillVerse

- Built a flutter and Firebase-based application for students to verify their skills and build their digital portfolio, track and measure their progress.
- Created dashboards for students, teachers, mentors, and admins with Firebase authentication to ensure security.
- Utilized Cloud Firestore to set up the database and added features like notifications and skill management.
- Designed the app's architecture to be scalable and created an intuitive user interface that increases students' engagement and makes the skill assessment process easy.

Diabetic Retinopathy Detection

- Developed a convolutional neural network using the TensorFlow library to classify the presence of diabetic retinopathy from retinal fundus images.
- Preprocessed the data, performed the necessary augmentations and normalized the images to achieve the best results.
- Tuned the model and evaluated its performance using classification accuracy and other common metrics.
- Showcased how an AI-based system can be utilized in healthcare to support the early detection of diabetic retinopathy.

INDUSTRIAL TRAINEE

National Small Industries Corporation (NSIC), Technical Services Centre, Hyderabad - Dec 2023 – Jun 2024

- Completed my 6-month Industrial Training focused on Java, Python, Linux & Data Science Fundamental.
- Got familiarized myself with the Software Development concepts and Programming fundamentals.
- Learned the basics of programming and data science concepts.

CERTIFICATIONS

- ServiceNow Certified System Administrator: February 2026
- ServiceNow Certified Application Developer: June 2026
- ServiceNow Certified Implementation Specialist – Data Foundations: June 2026
- Python Essentials by Cisco: February 2026
- Data Science for Beginners by Board Infinity: Apr 2026
